ABOUT ME

React.js/Angular Developer with 1+ years of experience in building dynamic and responsive web apps, specializing in CRUD operations and authentication using the MERN stack. Skilled in creating user-friendly interfaces and improving development efficiency. Passionate about sketching and reading.

EXPERIENCE

FRONTEND DEVELOPER @ F1STUDIOZ

- Developed web applications using HTML, JavaScript, CSS frameworks, and React.js/Next.js/Angular.
- Mastered Figma design replication, API integration, and collaboration using Git.
- Strong team player with effective communication skills.

PROJECTS

FOODIE   - Food Delivery Web Application

- **Technologies** : React.js, Tailwind CSS, Geolocation, Custom Hooks, Redux Toolkit, OpenWeather API, Swiggy API
- A culinary app with a responsive UI using Tailwind CSS, Swiggy API for restaurant listings, geolocation for nearby options, custom hooks, Redux Toolkit for state management, and OpenWeather API for location-based restaurant discovery.

TRELLO CLONE   - My Workspace - Trello-Inspired Features

- **Technologies** : Angular, JSON Server, DB Management, Drag Drop functionality.
- Developed 'Task Manager': Angular-based project with Trello-like features, including user auth, collaboration, dynamic UI. Leveraged JSON Server, highlighting AngularJS expertise, data management, and collaboration skills.

TECHIE   - All in one productivity Web Application

- **Technologies** : React.Js, localStorage, React-Router, State Management, CSS.
- Designed and developed a responsive all-in-one productivity web app featuring myNotes, Todos, Budgets, Color Palette, and Accordion-style Q/A set with pagination and search functionality.

CRYPTOCOSM   - A Cryptocurrency Web Application

- **Technologies** : React.Js, RTK Query, RapidAPI
- Built a real-time cryptocurrency updates and market stats web application.
